Military Freefall Solutions (MFS) was founded in 2011. It is a California incorporated company and designated as a small business. MFS conducts business nationwide across the USA with 2 office locations. West coast operations manage the domestic market and are headquartered in Coronado, CA. The East coast office manages the International business. The tactical parachute training facility is located in Blythe, CA.

MFS has been a prime government contractor to the DOD & JSOC, as well as providing expertise and support to other government agencies (OGA).

MFS was the first company to be awarded a GSA contract vehicle that is specific to parachute riggers, MFF instructors and a parachute training facility.

More recently MFS was recognized within the private sector for its logistics capabilities, providing C-130 aircraft, parachute facilities and parachute riggers to aerospace companies such as SpaceX, Zodiac Aerospace and Task Aerospace.

In summary, our team is highly experienced, professional and current subject matter experts in their fields. MFS's reputation for excellence, professionalism and integrity shapes strong relationships with our business partners and clients.

WORKING WITH MILITARY FREEFALL SOLUTIONS, INC PROVIDES MANY BENEFITS, INCLUDING BUT NOT LIMITED TO:

- The client's requirements and interests are MFS's number one priority
- The ability to say, "No" to opportunities we cannot fully support and perform at 100%
- Extensive client, industry, and SME networks and resources
- A knowledge library of references, lesson guides and resources
- Financial capacity to support contracts and growth
- A company that is structured and functions as a mature, larger business

WE AIM TO ESTABLISH LONG-TERM RELATIONSHIPS WITH OUR CLIENTS AND PARTNERS BY:

- Demonstrating high levels of commitment, professionalism and integrity
- Gaining complete understanding of the client's mission and requirements
- Performing tasks and projects to the highest standards
- Maintaining constant positive communications with the client
- Responding quickly and decisively in order to maintain client satisfaction
- Executing flawless contract performance

WE LOOK FORWARD TO
MEETING YOUR TEAM IN
THE NEAR FUTURE

The combined experience and expertise of Military Freefall Solutions founders contribute to the companies positive features. Simon Powell has a special operations background, together with practical expertise; Andy Peckett contributes a similar background coupled with valuable business experience.

SIMON POWELL

MILITARY FREEFALL SOLUTIONS, INC.
PRESIDENT & CO-FOUNDER

Simon's air operations experience stems over 34 years and some 14,500+ jumps, from his initial time as a team leader within a tier one JSOC Sqn, to being the JSOC Air Rep and planning missions, to present day businessman within the private sector. Simon's accomplishments are many, of note is his bespoke COI and curriculum for a JSOC Sqn. This HAHO COI has proven results and is now a recognized training requirement for that Sqn. Finally, an avid aviation enthusiast, Simon is a multi engine rated pilot as well as a seasoned USPA parachute instructor examiner with multiple instructional ratings.

ANDY PECKETT

MILITARY FREEFALL SOLUTIONS, INC.
VICE PRESIDENT & CO-FOUNDER

Andy has 37 years of air operations experience and amassed 15,000+ jumps. In 2002, he was recruited by Naval Special Warfare to assist in the development of a Military Freefall school for NSW in San Diego. Working closely with NSW in the development of a program, Andy wrote the curriculum for the US Navy Static Line Course A431-0135 and US Navy Free Fall Course A431-0136, these courses are still in use today by NSW. Andy enjoyed a successful term of 10 yrs as the Deputy Course Director before leaving to start a company with his current business partner. Aside from military parachuting, Andy is also a private pilot, FAA rigger and a seasoned USPA parachute instructor / examiner for coach and tandem ratings.

- Airport elevation is 399 ft MSL
- Multiple Drop zones listed on the USAF AZAR (Blythe Airport Circular)
- Additional drop zones located off site and within 10nm
- LOA out to 10 nautical miles and up to 18,500 ft. (most commercial drop zones have a limited LOA of 2 miles)
- 24,999ft available on immediate request and coordinated with LA Center
- Multiple marked and unmarked drop zones on the airport
- Live fire capability for sniper shoots with its own drop zone for full mission profile jumps
- Primary DZ is close to the hanger, thus reducing recovery time off the field. This is a significant reduction in training time and troop fatigue
- All DZ's are free of obstacles and power lines

LEVEL II TRAUMA FACILITY

Havasu Regional Medical Center
101 Civic Center Lane
Lake Havasu City, Arizona 86403
928-855-8185

Helicopter life flight by Mercy Air, Reach Air or Care Flight is on call
The Havasu Regional Medical Center Level II Trauma Center is fully equipped to handle the most urgent and serious traumatic injuries. The medical team evaluates, treats, and provides follow-up care to people who are critically injured in accidents, those who need immediate critical care, and patients with broken bones, brain and spinal cord injuries, deep lacerations, and life-threatening conditions.

The Regional Trauma Center is expertly staffed by board certified trauma surgeons in the hospital 24 hours a day, 365 days a year. The highly experienced trauma team works closely with regional Emergency Medical Services (EMS) providers and medical evacuation helicopters.

There is an on-site landing pad that enables air rescue and critical-care transport to Havasu Regional Medical Center at any time, day or night. Individuals with life-threatening injuries or illnesses are given priority admission and immediate access to a full array of advanced diagnostic and imaging services under the direction of the trauma surgeons.

MFF Solutions Inc is veteran owned and operated company that is highly experienced in all facets of military air operations, specifically personnel parachute training and air operations support. MFF Solutions Inc has a proven track record of support with SOF units (see attached past performance). Our personnel have all held security clearance's in the past and will sign security disclosures if required. MFF Solutions Inc operates within a drug free environment and all our staff are subjected to random testing.

INSTRUCTOR STAFF

Our cadre is a combination of former military air operations SME's (MFFI's) and professional qualified civilians (National Competitors) who have been granted permission to work with SOF units, all understand the need to observe the clients way of doing business and that different military units have different written procedures that need to be followed. The MFS team of instructors are former JSOC operations specialists (MFFI/AFFI). Our multi national staff of instructors are from the USA, UK, Australia & Canada. The cadre possess extensive experience in freefall parachute training, videography, curriculum development and military training processes. In addition to being MFF Instructors, the MFS instructor cadre are all USPA instructors and many of them hold USPA Examiner status for AFF / Tandem / Coach.

OXYGEN STAFF

MFF Solutions Inc offers Oxygen replenishment and Oxygen Support. Both at our facility, or at your location of training. As of 2021, we now have a dedicated oxygen bay onsite at our facility.

AIR SUPPORT

Military Freefall Solutions, Inc is able to provide DOD authorized and approved aircraft. The following are available at MFF Solutions Inc's Tactical Training Facility
Cessna Caravan (Black hawk), *Skyvan SC7, *Sherpa C23B, Casa, C-130
UH1(Huey) UH60 (Blackhawk) Skycrane
** Skyvan SC7 and Sherpas C23b are Part 135 CARB RATED as of FEB 2021*

RIGGING STAFF

Our parachute rigging cadre are all FAA riggers (master & senior). Each has US DOD authorization to pack military parachute equipment. They all have US Army or US Navy riggers certifications (Ft Lee or USN Spec Ops PR). They are qualified to pack many military parachute systems, including MT2-XX, MC-4, MC-5, MC-6, T-11R, SOV3, MMPS, TORDS and RA-1. In addition the riggers hold OEM certification for the Sunpath Javelin container system (MJ)

They are available for unit specific equipment training if required.

CONUS & OCONUS

All services offered by MFF Solutions can be provided at any location within the USA or Globally.
